## Choosing the Road to Recovery...

From the moment you come through our doors you will experience our friendly and caring environment. Our homelike accommodations, large rooms and picturesque setting complement the care you will receive from our professional staff of caregivers. Whether you are recovering from surgery or a serious illness, we understand how complex and important choosing the right healthcare setting can be.

Lewis & Clark Rehabilitation Unit is the only stand alone Rehab facility in Lewis & Clark County, making your recovery a pleasant experience.

Our short term rehab programs and services include but are not limited to:

Orthopedic surgery recovery

Stroke recovery

Cardiac recovery

Serious Illness

### What is Physical Therapy?

Physical therapy is the treatment of injury, disease and other physical disorders to restore function.

Treatment includes exercise to increase strength, endurance, coordination and range of motion, the use of assistive devices, the application of physical agents or exercise to relieve pain, promote healing and restore function.

### What is Occupational Therapy?

Occupational therapy is the use of purposeful activities to restore and maximize independence. Treatment includes the use of specific activities to improve or restore activities of daily living such as meal preparation, bathing, grooming, and toileting.

### What is Speech Therapy?

Speech therapy is the treatment of a communication deficit or a swallowing problem. Speech therapy includes treating language disorders, cognitive disorders, and swallowing risks. This involves cognitive training for memory, oral motor exercises for speech and swallowing deficits, and proper identification of dietary needs to sustain weight and strength.

### Admission Criteria

Residents admitted to the Lewis & Clark Rehabilitation Unit should meet the following criteria for admission:

Desire a short stay while recovering from surgery or a serious illness.

Require the Services of a Licensed Therapist five days a week.

Be able to participate in the treatment plan and make measurable progress during the course of their stay.

Desire to return home or have a discharge plan.

Qualify for payment of skilled care by Medicare or Private Insurance.
